

PARENT GUIDE

Everything you need in the first week, on one page.

Keep this page handy or print it — and share it with the rest of the family on WhatsApp.

1

Open the app

On your phone, open app.uselittlesteps.com— or the app itself if your nursery sent you a download link.

2

Log in

Use the credentials your nursery sent you. No invite, or forgot your password? Ask the nursery office to resend it — they manage your account.

3

Follow your child's day

The home screen and your child's page show the daily report: meals, naps, activities, photos, and teacher notes as the day unfolds.

4

Read messages and announcements

The Messages tab gathers nursery notifications, announcements, and direct conversations. When the nursery opens a conversation with your family, you can reply right there.

5

Check your invoices

The Billing tab shows the amount due, due dates, each invoice's status, and payment receipts. How you pay (cash or transfer) is set by your nursery.

6

Report absences from the app

Traveling or a sick day? On your child's page choose "Request absence" and tell the nursery in two taps instead of a morning phone call.

Trouble logging in or a confusing screen? Contact your nursery office first, or reach us at support@uselittlesteps.com or on [WhatsApp](#).
